Compatible across conferencing platforms

Vibe Board seamlessly integrates with your favorite conferencing apps, allowing you to enhance collaborations like never before.

One-click video conferencing

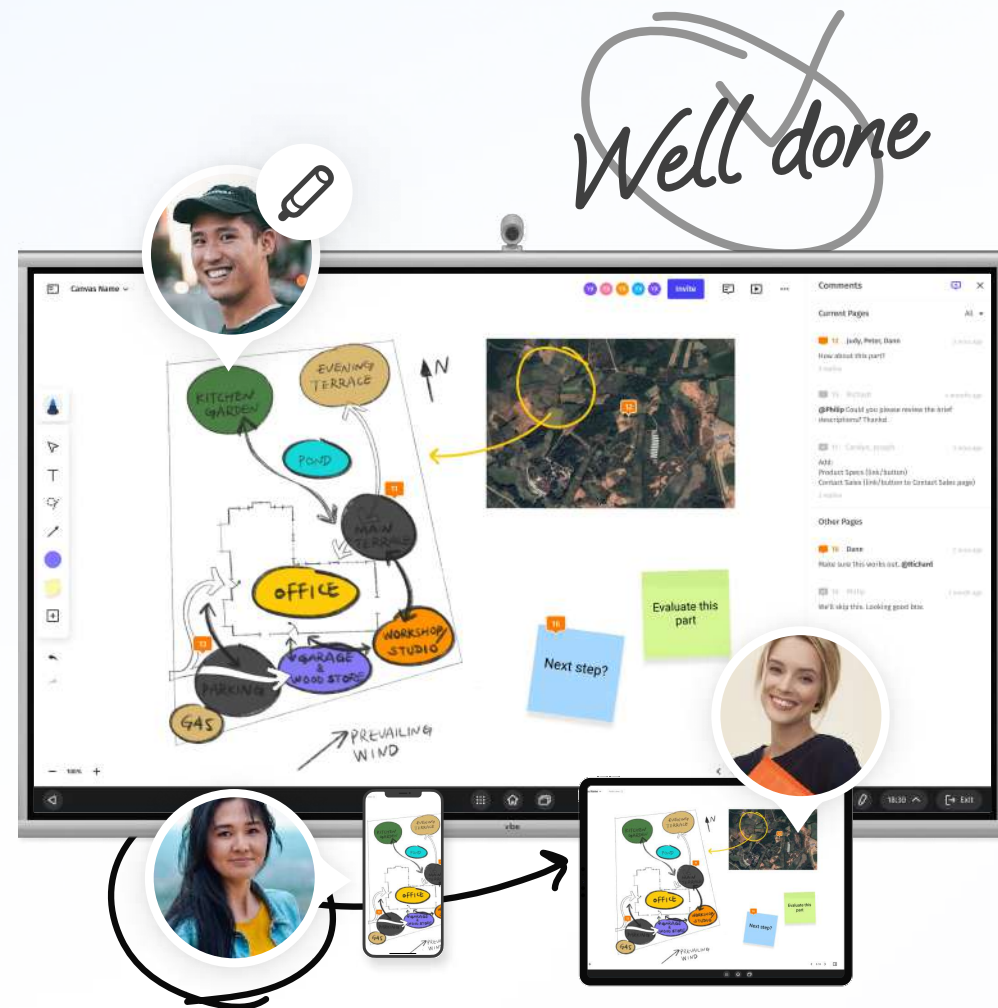

Sync your calendar with the Vibe Board and join virtual meetings with just one click.

Make sure everyone is seen and heard

Capture the entire scene using a super-wide FOV smart camera equipped with AI capabilities, such as auto-framing and noise cancellation.

Improve collaboration with your remote teams

Brush mode

Use watercolor pencils, crayons, and markers to build your work and highlight your notes with ease.

Infinite canvas

Unleash your creativity on an infinite canvas. Build vertical and horizontal scroll infinite canvases based on your needs.

Templates

Start your work faster with pre-built templates. Save you time and effort by providing a solid foundation for your projects.

Cloud-based

Automatically save all discussions to the cloud in real-time, no need to worry about losing any ideas anymore.

Multi-device support

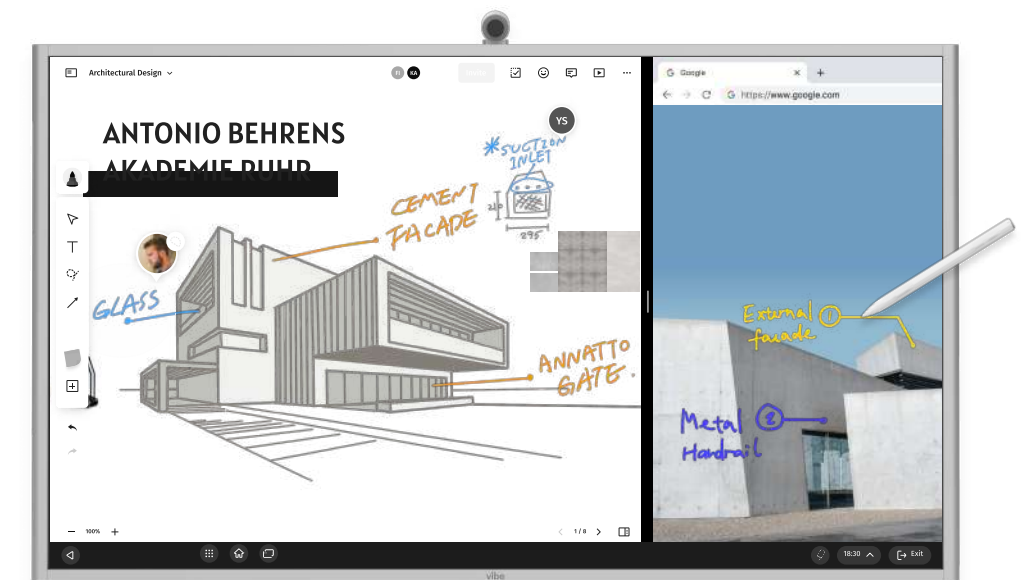

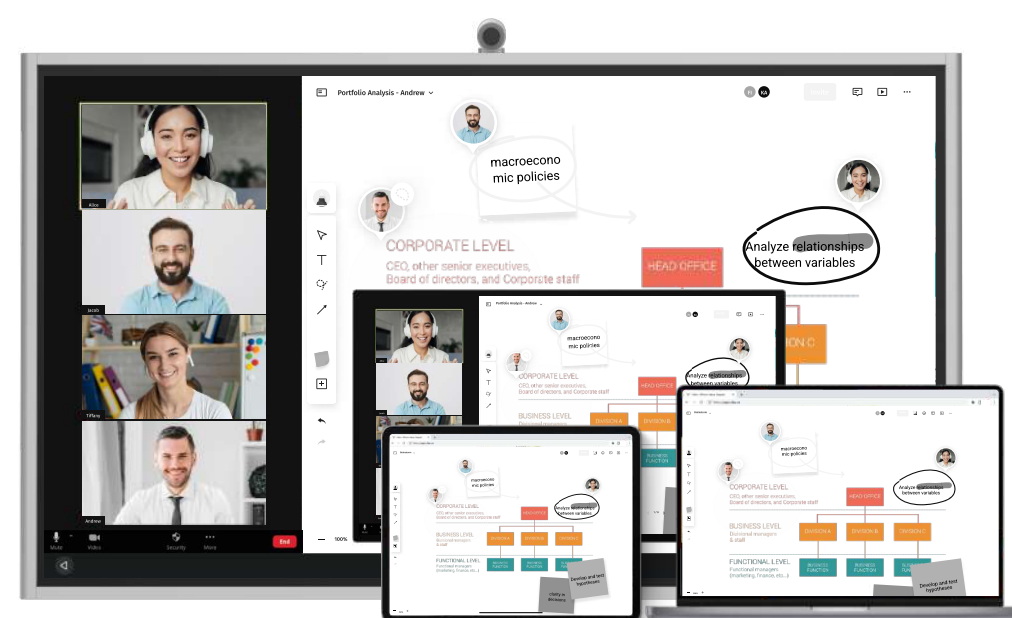

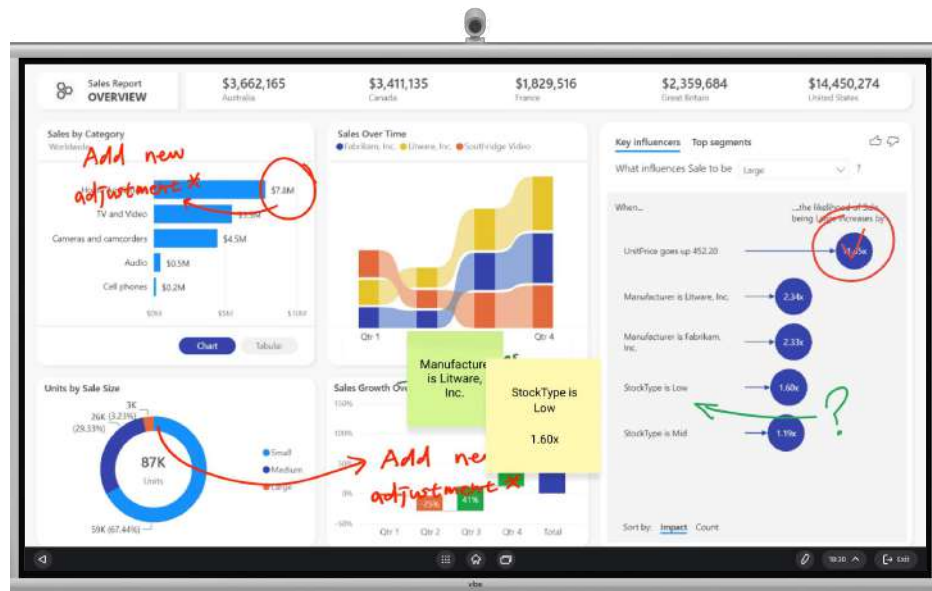

Collaborate on the same canvas from a Vibe Board, computer, iPad, or phone in real time from anywhere.

Comment

Use comments, stickers, and emotions to add feedback and ideas to help drive discussions.

Wow your audience with stunning presentations

Deliver impactful presentations

Choose the apps that best convey your message, whether you're presenting a sales report with PowerBI, a Marketing campaign with PowerPoint, or UX design with Figma.

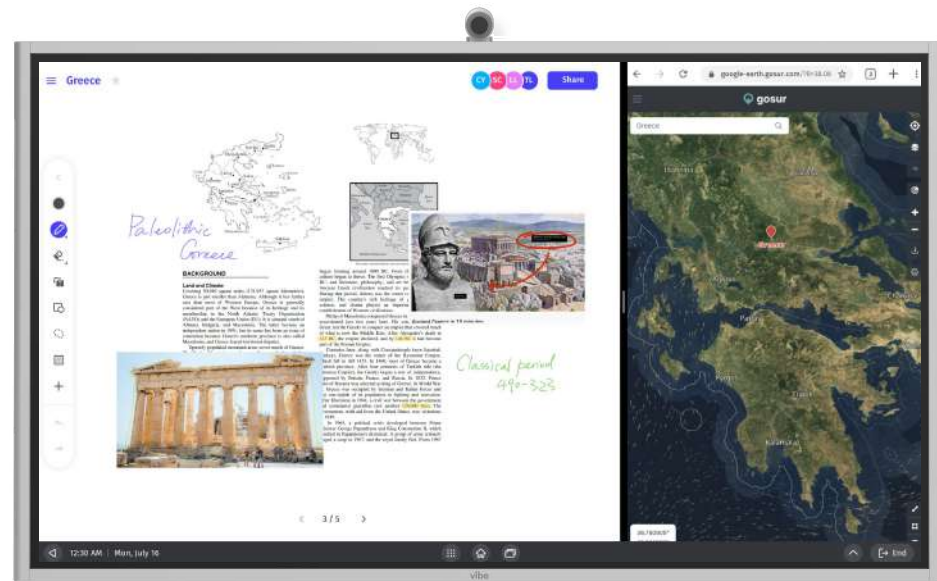

Effortless screen casting

Cast any files from your devices—computer, tablet, or smartphone—to the Vibe Board with HDMI-in, USB-C ports, or wireless screen casting.

Annotate any layer

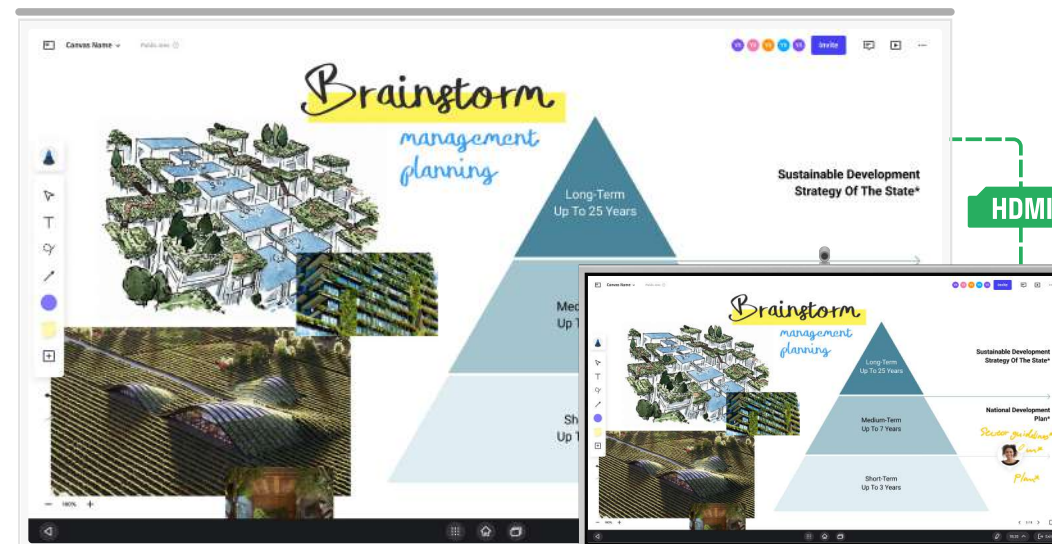

Annotate images, PDFs, or videos while presenting, making it easy to emphasize important points and bring clarity to your big ideas.

Wow your audience with stunning presentations

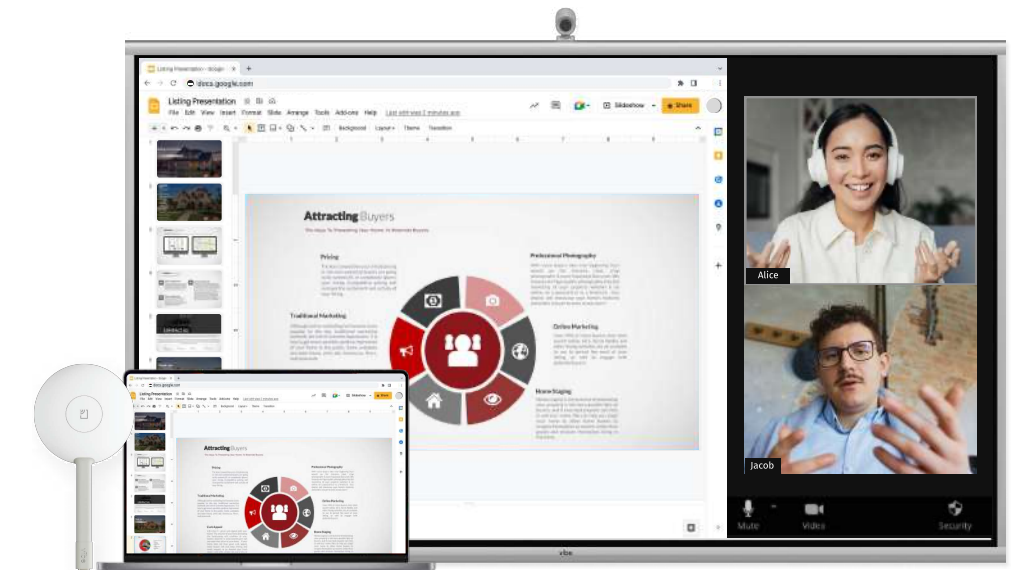

Split-screen view

Run two apps side by side for seamless multitasking. Draw references from Chrome, YouTube, or other apps while you work.

Multi-screen functionality

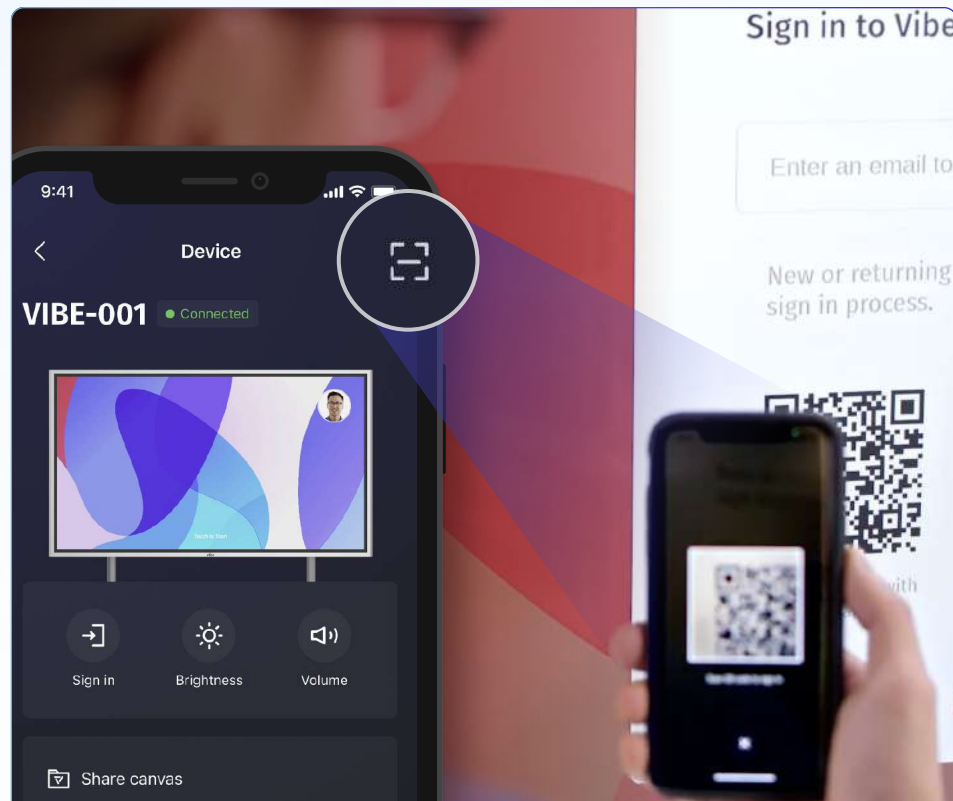

Control your laptop and board simultaneously with touchback control, and project content from the Vibe Board to other displays when presenting to larger audiences.

4K wireless screen share

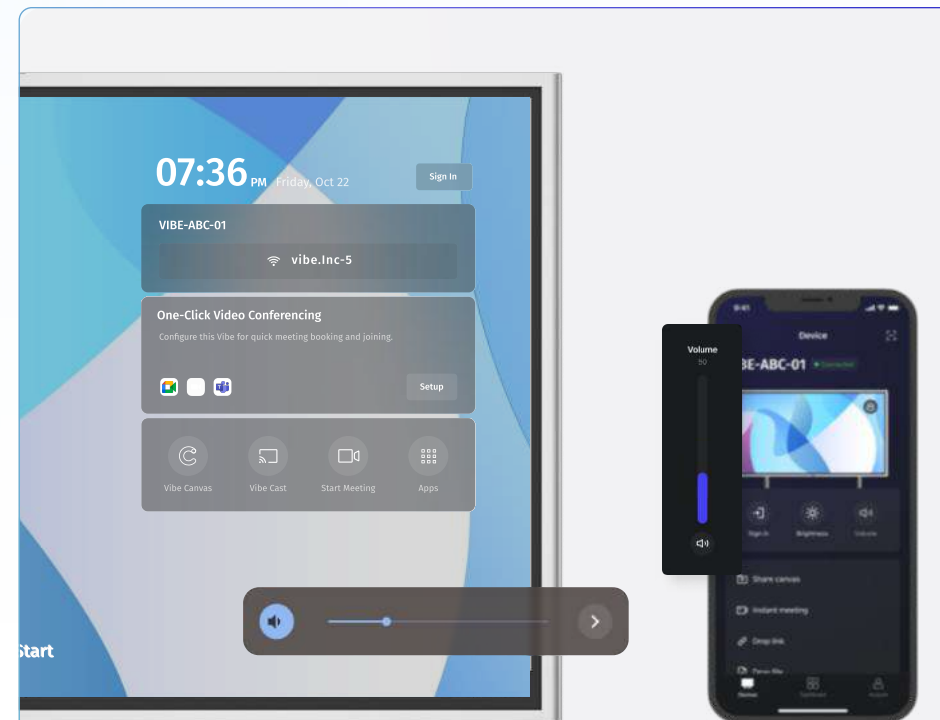

With our display adapter Vibe Tap, designed for Vibe Board, you can start a presentation in seconds, and enjoy wireless connectivity with 4K resolution support, even in areas without Wi-Fi.

The Companion Service For Vibe Board

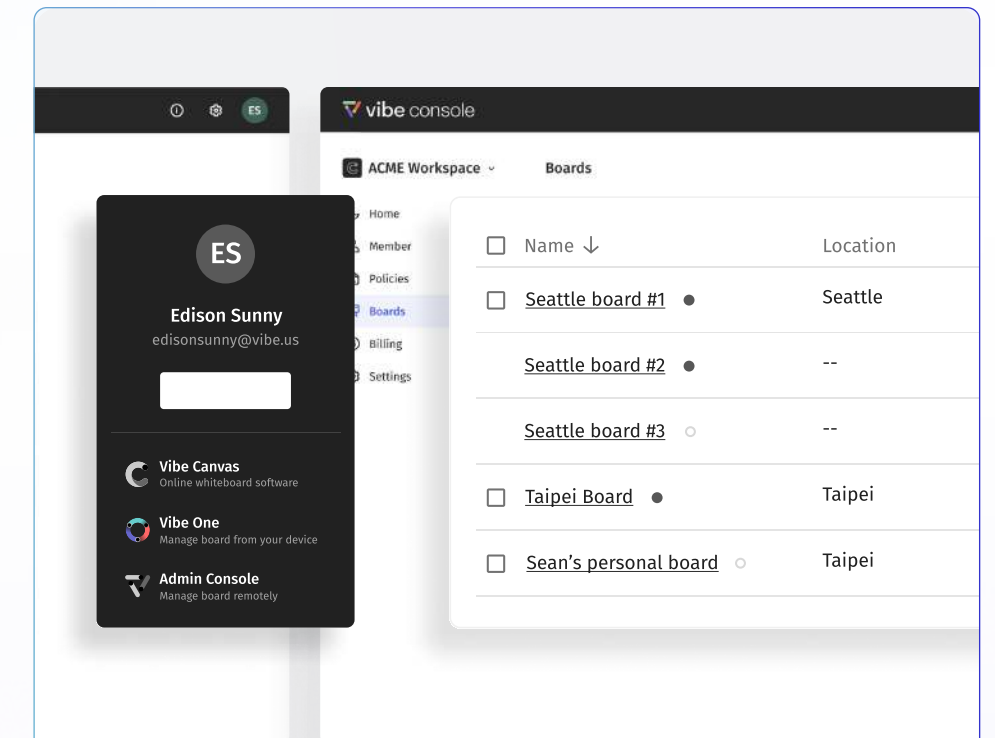

Simplify Work on Vibe Board

To enhance your workflow, enjoy quick sign-in, instant meeting access, one-drop file transfer, and scan to save canvas, effortlessly with Vibe One.

Remote Control Made Easy

Take full control even from a distance. Seamlessly adjust board settings, slide through presentations, and interact with the board, without leaving your seat.

Easy Fleet Management

Configure devices, manage users, and apply policies to all boards with Vibe Admin Console, and tailor the setup process to suit any team.

Enterprise-Grade Data Protection

Trusted computing with TPM 2.0

With Trusted Platform Module (TPM), the Vibe Board* makes sure to encrypt user profiles and certificates, facilitate disk encryption, the list goes on.

*Compatible devices required.

Fleet management

Configure and manage your devices and users remotely from any web browser, IT admins can tailor the setup process to any team.

Single sign-on authentication

Vibe ensures that only the right people and approved devices can access user's or team's content.

Over-the-Air updates

Vibe provides automatic security updates every 2-4 weeks to ensure you're working on the latest and most secure versions of Vibe and Chromium OS.

Dedicated user accounts

When working in a shared workspace, you can sign in to your dedicated account to stop unauthorized access to your apps or sensitive information.

SOC 2

Assurance to customers that Vibe has appropriate security measures and controls in place to protect data and ensure the overall integrity of services.

Trusted by 33,000+ Forward-Looking Business Leaders and Educators

“It’s an active learning process that gets students engaged and gets them actively thinking, not just passively listening to material.”

Dr. Austin Alexander
Professor at Hardin-Simmons University

“Using the Vibe board during the livestream has generated even more business. It’s the ultimate engagement tool.”

Victor Antonio
Author, Speaker and Business Consultant

“Vibe turned out to be a great solution for me and for my business. I can work with more teams in a given week, reaching twice as many clients.”

Mike McHargue
Founder, Principal Consultant of M5 Partners

“Vibe is a great tool to make sure everyone’s on the same page.”

Jonathan Wong
Project Manager at SBW
